These with Miss McGinnis, of Wray, Col., a niece of Mr. Walker, who is still here makes a trio that keeps M. D.'s house in a perfect uproar from sun up till midnight. The boys are kept busy explaining to their "city cousins" what the various things are used for on the farm, and the whole gang wanted to see the cows that gave the butter-milk and are extremely careful in going to the "latter patch" for fear their eyes might see too much. They are a jolly crowd and are seemingly having "an enjoyment time."

—J. W. Hill, of Fairfax, was in town a day or two the past week, looking up some stock, being one of Atchison county's prominent stock dealers. Back in the early 70's Mr. Hill resided in this county, and resided with his uncle A. C. Dodson, who then lived northeast of Oregon. He cast his maiden vote in this county, which was for Grant in 1872 and this was the first and last republican vote he ever cast. He was here at the judicial convention in 1898, that nominated Judge Craig, and these two visits are the only ones he has made here since he left the county, which was in 1875.

—A force of men are at work this week erecting a stone wall at the bridge across the branch. On the west side next to the school yard the wall is to be 60 feet in length and 12 feet high, while on the east side it will be 40 feet in length and 10 feet in height. This completed, the bridge will be raised one and one half feet. The amount of money required for this much needed improvement, including filling in will reach \$1,000. We are not certain where all this money is to come from, but we learn that a large amount of the expense will be borne by the school board, while a liberal contribution comes from Mr. George Weber who will also construct a twenty foot wall alongside his property south of the bridge.—Forest City Star.

—A new contract has been made for the carrying of the mails from this city to Oregon and vice versa. For many years it has been the custom of the government to let the carrying of mail on a large number of star routes to one person, who sub-let the contracts on his various routes. Under a new ruling the contractor must be a resident of one of the towns on his route, and the fellow who has been sub-letting on a nice margin is now a contractor or graffer without a job. A. W. Seeman, who has so faithfully looked after the mails for several years on the Forest City-Oregon route, has been awarded the contract under the new ruling, which went into effect this week. A new contract for White Cloud also goes into effect, and from this time forth White Cloud will receive two daily mails instead of one as heretofore.—Forest City Star.
